4 SIMPLE
ACTIONS
TO START
A FIELD
GROUP

QUESTION:

**WHAT
PROFESSION
ALLOWS
YOU TO:**

1. Help others achieve spiritual freedom
2. Get up The Bridge faster
3. Be cause over your dynamics
4. Apply Scientology 24 hours a day

ANSWER:

Field Auditing

"All my life I have always been able to make regular progress up both sides of The Bridge, supported financially solely by my auditing skills."

"If everybody audited for a living, the world would be so much better."

"It's an adventure to see someone go free and to be the one making that happen is an adventure like no other."

**— Tony Wyant, OT VII, Class VIII
Professional Field Auditor**

Call or e-mail your local I HELP office and find out how easy it is to start your field practice today. (Phone numbers, addresses and e-mail addresses on opposite page.)

FIELD AUDIT YOUR WAY TO CLEAR & OT

Imagine being in session with a preclear. You are handling a chain of overts. Your preclear is doing well and tells you there aren't any more overts on the chain, yet the question doesn't P-N. You have checked all the buttons but there are no reads. The preclear is still telling you there is definitely nothing else there.

WHAT DO YOU DO?

If you don't know the answer to this question, then you need to get through your Golden Age of Tech training immediately. And, even if you do, if you haven't done Golden Age of Tech training up to your level, there are situations you will run into in auditing that you will not know how to handle until you do your Golden Age of Tech training.

An auditor who has been trained in the Golden Age of Tech is able to apply Standard Tech perfectly, just as LRH intended. With the application of 100% Standard Tech comes standard results, smooth sessions and winning preclears.

This has everything to do with field auditing and your success in it. If a person is not through their Golden Age of Tech, factually, they are not delivering Scientology and Dianetics perfectly and to that degree are off-source and not delivering LRH's brand of the tech.

In HCO PL 13 September 1965R1, OLIT-TECH, AND HOW TO GET IT IN, LRH states:

"All auditors go through this. All of them, once trained, know the right processes. Then they have to graduate up to doing the right processes."

"Observation plays an enormous role in this. The auditor is so

all thumbs with his meter and unfamiliar tools he has no time or attention to see what goes on with the p.c. So for fifteen years his of auditors made releases without ever watching it. They were so involved in knowing and so unskilled in applying, they never saw the ball go down the fairway for a 300-yard drive!

"Do you get the point?"

"After is and poor results do not really come from not-know. They come from can't apply."

"Drills, drills, drills and the continual repetition of the important data handle this condition of can't apply. If you drill auditors hard and repeat often enough basic auditing facts, they eventually disentangle themselves and begin to do a job of application." — LRH

As a trained auditor, you are the only person with the tools to get people onto and up The Bridge to Total Freedom. Without all auditors auditing, the clearing of this planet will not occur. As covered in IG Network Bulletin No. 41, WAKE-UP CALL, the urgency of getting all people on this planet up The Bridge cannot be stressed enough.

Golden Age of Tech training is the key to certainty for you as an auditor; it makes you into a 100% Standard Tech auditor able to handle any situation in session. In other words, by doing Golden Age of Tech training, you will become the perfect auditor you have always wanted to be. Not only does this enable you to be

cause and survive better as an individual, it gives you the ability to get anyone up The Bridge with total certainty and results.

As a Scientologist, you are an auditor and you have a responsibility to use the tech you know to help others. If you are not applying what you know, there is a reason for it and the Auditor Revitalization program and Golden Age of Tech training handle this.

Every trained Scientologist needs to put his shoulder to the wheel to pull off the clearing of this planet. It is your planet too and it is time you did what you originally intended to do — help others up The Bridge to Clear and OT.

If you need any assistance, you can also contact your local I HELP office.

100% ACCURACY

Standard metering results

THE E-METER FOR THE GOLDEN AGE OF TECH

When you're auditing, there's one thing you need in your meter more than anything else: ACCURACY. That's why you need a Quantum.

With its automatically adjusting variable sensitivity, you'll know with confidence that you'll see every read, no matter the Tone Arm position. And you'll have the right read — the exact charge — with nothing missed. That means everything to mastering the skill of auditing with real results.

LRH LECTURES NOW

THE LRH LECTURE SERIES THAT'

POTENTIAL KNOWLEDGE

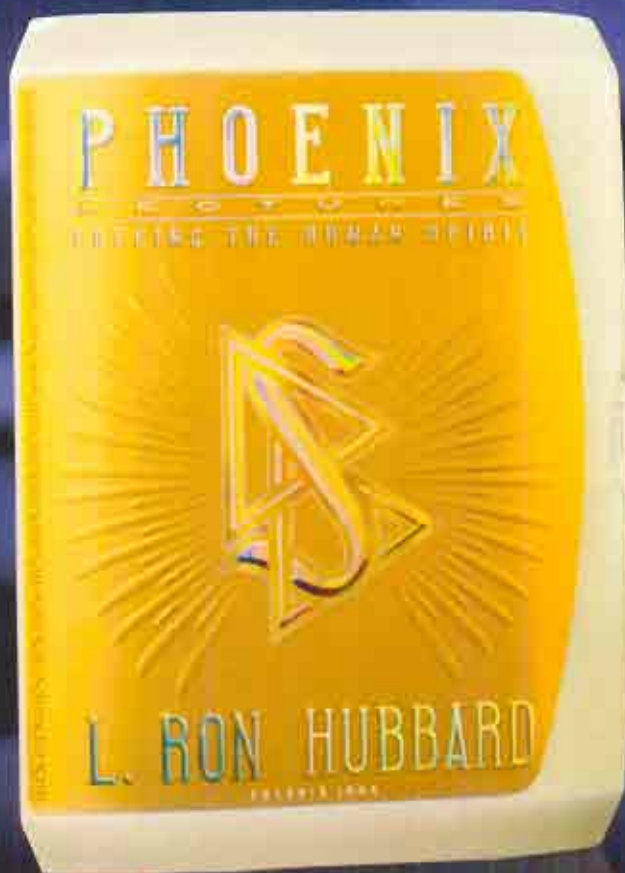

THE PHILADELPHIA DOCTORATE COURSE

START USING YOUR FULL CAPABILITIES
AS A SPIRITUAL BEING

These lectures are the highest expression of the innate beingness and power of a thetan. This series stands today as the largest single body of work on the anatomy, behavior and potentials of the spirit of man ever assembled. If you are Clear, on your Solo Auditor training, a pre-OT or just want to know the principles which underlie the route to full Operating Thetan, this is the series for you. Here's where the full extent of a thetan's abilities are measured and taped.

If Book One is the owner's manual for the human mind, *The Philadelphia Doctorate Course Lectures* comprise the manual of you — a thetan.

- 76 lectures in 4 CD cases & 8 modules
- Transcripts, glossaries & reproductions of the 54 LRH hand-drawn lecture charts

PHOENIX LECTURES

FREEDOM THE HUMAN SPIRIT

This new edition of the *Phoenix Lectures* is the preeminent series on the bedrock fundamentals underlying the entire scope of Scientology. If you want a total grasp of the bedrock data from which everything in Scientology comes, you must know the data in this series. Here is the panoramic view of Scientology, complete — all the fundamentals that make possible the attainment of true spiritual freedom. The Axioms, Conditions of existence, Consideration and mechanics. Space, Time, Principles and postulates that operate in any universe. The core subjects that every Scientologist must know, and know exceedingly well.

Containing 11 lectures never before released, the *Phoenix Lectures* advance the potentials thoroughly described in *The Philadelphia Doctorate Course* to the next stage, *living actually*.

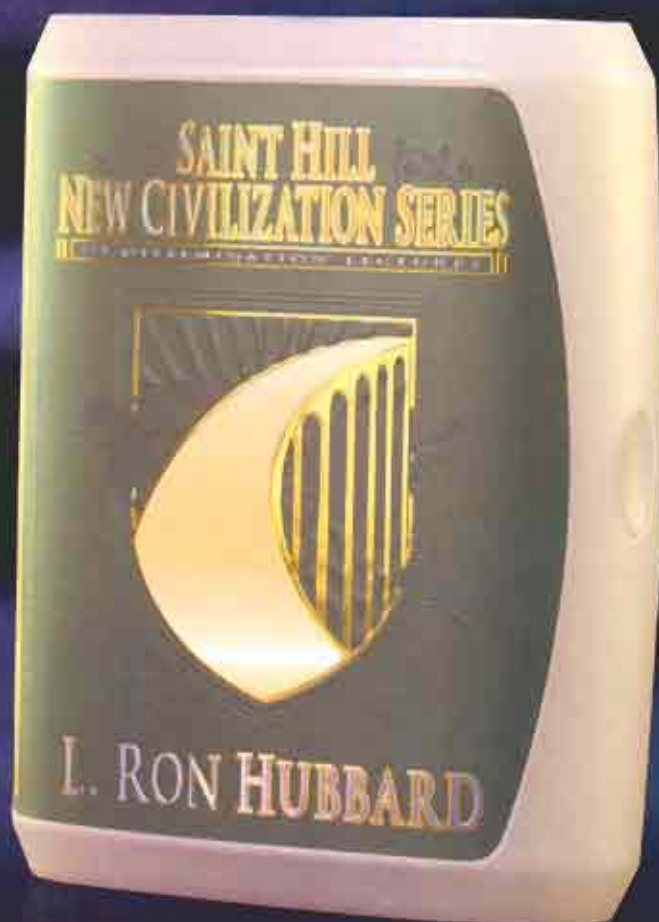

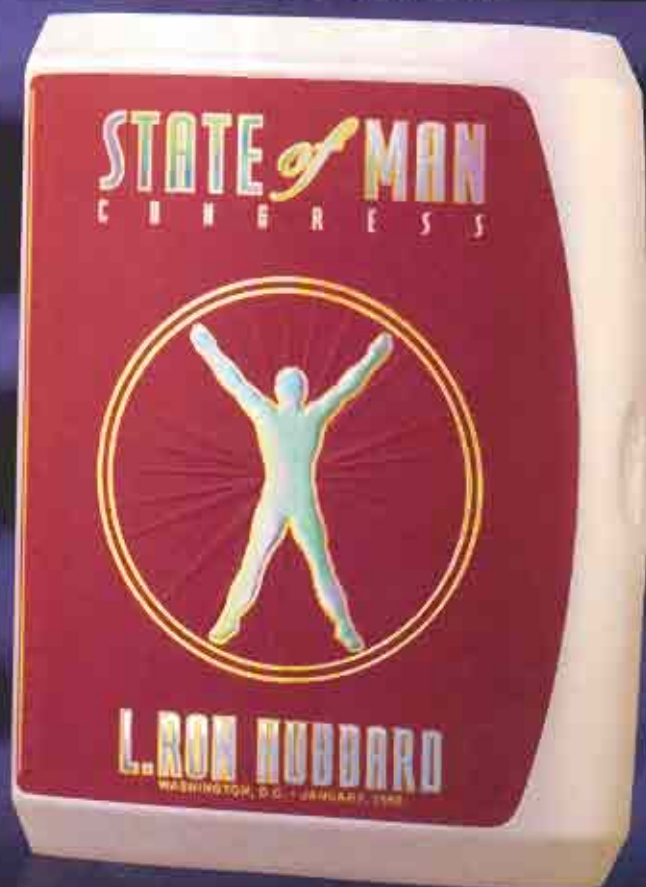

- 28 lectures in 2 modules
- Transcripts, glossaries & supplement containing codes, scales & axioms referred to in the lectures by Ron

ON COMPACT DISC S EXACTLY RIGHT FOR YOU!

RESPONSIBILITY

CONTROL

STATE OF MAN CONGRESS LECTURES THE MAKE-BREAK POINT OF CASE GAIN

If you are looking for *the* way to speed your progress up The Bridge, you must hear these lectures. The pathway to the highest states for every individual runs past the milestone of Responsibility. Any other way that seeks to avoid responsibility leads to individuation, lessened reach and diminished hope. A conscientious grasp of the knowledge here not only speeds your ascent to Clear and OT, it guarantees that you will make it. And this is why the *State of Man Congress* is the bestselling lectures series of all time. And why it will benefit you.

• 9 lectures • Transcripts, glossary & supplement containing essential LRH writings on the subject of responsibility

SAINT HILL NEW CIVILIZATION SERIES OT DISSEMINATION LECTURES 4TH DYNAMIC SALVAGE

From the heights of the Saint Hill Special Briefing Course and the dawn of the OT levels, comes advanced knowledge with the power to salvage a planet and raise it to a higher plateau. If you are active as a field Scientologist in any capacity, this is the exact series for you. Here are the means to communicate Scientology to any reality level on Earth, data from the viewpoint of OT — knowledge crucial to the survival of the 4th dynamic. These are the most OT lectures ever made available. For here is more than the potentials of OT, here is the very test of OT — the ability to make things go right and how to do it.

• 12 lectures on 22 CDs, 2 modules • Transcripts, glossaries & a supplement containing key LRH writings on 4th dynamic salvage

SUCCESSFUL ACTIONS

LETTERS FROM OUR READERS — WHAT YOU HAVE TO SAY

Send your letters with opinions, suggestions, comments and successful actions to the editor and we will select some to publish in this new section of our magazine. It's just one part of CAUSE's new look. Your communication is wanted, so send it in!

BOOKS MAKE BOOMS

I just wanted to write in and give my most successful action on procuring preclears — BOOKS. Books are a great way to get preclears.

All I do is the following:
I get a quantity of books from my local org, go out onto my street or into a shopping mall or a swap meet and set up a table with Dianetics books or whatever book I want to sell. Then I don't do anything...except stand there and handle people's questions and sell them books. It is that simple. People want help, they want answers and they will be curious. I also sometimes bring another person along.

If you have uncertainties or are backed off, you can also find out who in your org or area is successful at selling books and team up with that person to sell books.

Key to getting preclears from this action is to ensure that you have put your name, address, phone number and e-mail address in the front of the book (either a sticker or stamp) so that the person can contact you if he has any questions or wants more information. Also, make sure when you sell the person a book that you fill out an invoice

with the person's name, address and phone number so you can follow up and make sure they get through the book and then sell them another book or get them into service.

—T.V.

POVERTY OR AFFLUENCE?

During the last IHELP Convention one of the attendees made the following comment after the CO-IHELP International read an LRH reference which I thought you might be interested in.

—The Editor

"I have heard that field auditors could make thousands of dollars in income auditing for a living, but I thought it would be off-purpose for field auditors to make a lot of money. This kept me from being a field auditor as I wanted to help but I still had to pay the rent, progress up The Bridge, etc.

"After the CO-IHELP Int read the reference, DIANETICS AND SCIENTOLOGY, A CRUSADE, this conflict was resolved and now I am working on field auditing my way up The Bridge."

Here is an excerpt from the above mentioned LRH reference:

It is no disgrace for an auditor to earn

several thousand dollars in a few weeks. It would only be a disgrace if he worked only to earn it. With money made from those who can afford auditing, an auditor can himself afford to undertake the assistance of those in hospitals and asylums or who have lost in life.

"An auditor is wasted on a routine job — his time is lost. He is also wasted processing nothing but movie stars and millionaires — if he forgets that these can only buy him the luxury of clarity in the backwaters of the world." — LRH

AGE DOESN'T MATTER

My husband, Mike, my 12-year-old daughter, Claire and myself are all Volunteer Ministers. My daughter gives regular assists to her schoolmates. For example, one day her friend came to school in grief; her new hamster had died that morning. Claire immediately did an assist on her. Soon, her friend was back to her cheerful self. Claire and I are also both certified Los Angeles Fire Department volunteers. We also have been having meetings at our home for local Volunteer Ministers to assist them in their activities.

Just wanted to keep you updated in our activities.

—JLK

WHAT YOU KNOW

If you had a problem regarding your practice or group or in the general area of dissemination and then handled it with an on-policy solution, let us know about it. This is an opportunity to help your fellow auditors.

Problem: **BOB BARRON** had been trying to start a field practice but he was having trouble getting preclears. A Class IV Auditor, he was trained prior to the Golden Age of Tech.

Solution: What he did to handle this comes from Saint Hill Special Briefing Course lecture of 12 Dec. 61, SEC CHECKS IN PROCESSING. In it, LRH states, "Scarcity is repaired by technical excellence."

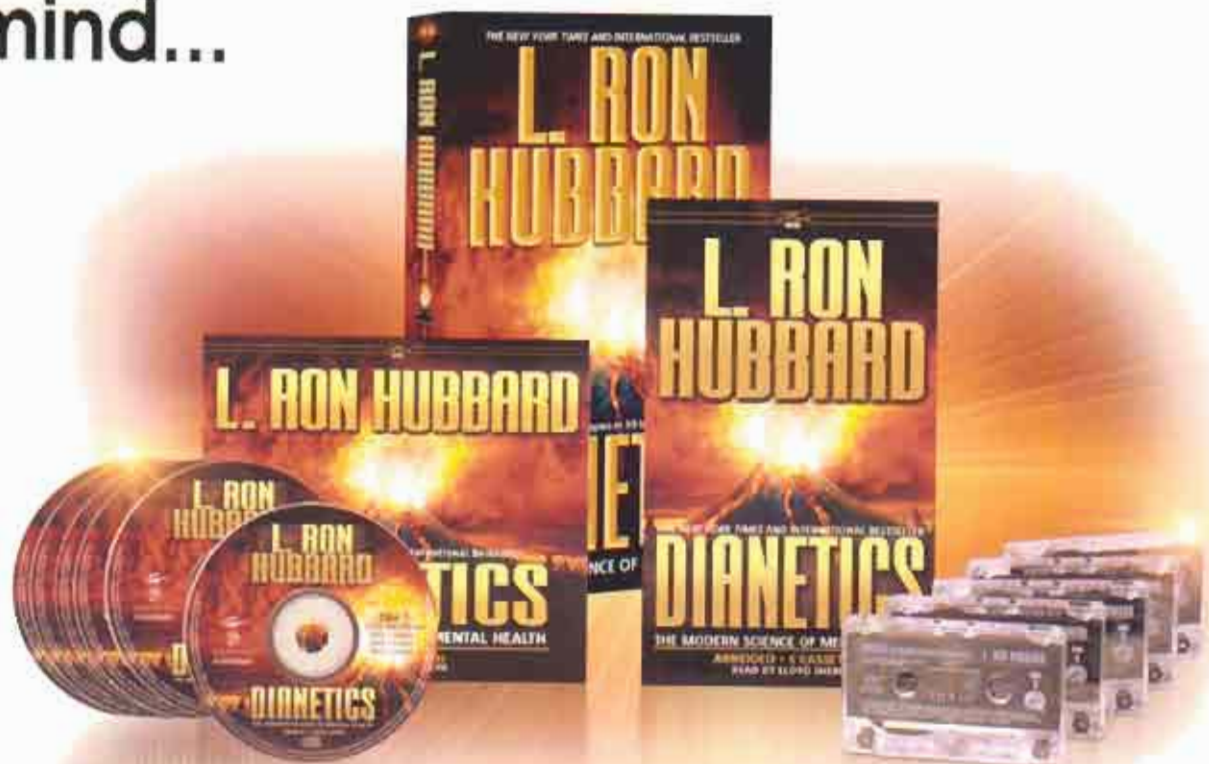

He decided he needed to become a perfect auditor. He was not a bad auditor, but he hadn't done the Golden Age of Tech training up to his level, so he wasn't perfect. The above quote from LRH definitely applied.

For anyone in the same position, what you should do is get onto your Golden Age of Tech Certainty Courses, lifetime. These courses are made especially for previously trained auditors like Bob and you. It only takes three weeks to do the Academy level DIV Certainty Course checklist.

Bob did it and hasn't been without a preclear since.

Technical Perfection

by L. Ron Hubbard

The term "OUT-TECH" means that Scientology is not being applied or is not being correctly applied. When tech is IN, we mean that Scientology is being applied and is being correctly applied. By TECH is meant *technology*, referring of course to the application of the precise scientific drills and processes of Scientology. *Technology* means the methods of application of an art or science as opposed to mere knowledge of the science or art itself. One could know all about the theory of motor cars and the science of building them and the art of designing them and still not be able to build, plan or drive one. The *practices* of building, planning or driving a motor car are quite distinct from the theory, science and art of motor cars.

An auditor is not just a Scientologist. He or she is one who *can apply* it. Thus, the technology of Scientology is its actual application to oneself, a preclear or the situations one encounters in life.

Tech implies USE. There is a wide gap between mere knowledge and the application of that knowledge.

When we say tech is out, we might also say, "While that unit or person may *know* all about Scientology, that person does not actually apply it."

A skilled auditor knows not only Scientology but how to *apply* the technology to self, pcs and life.

Many persons auditing have not yet crossed over from "knowing about" to "applying." Thus, you see them *fumbling* about with pcs. When a *skilled* auditor sees a critical pc, he knows BANG—pc has a withhold and pulls it. That's because this auditor's tech is *in*. Meaning he knows what to do with his data.

Some other person, who *knows* a lot of Scientology, has had courses and all that, yet sees a critical pc, and then tries to add up everything he knows about pcs and stumbles about and then decides, on a Zero pc, it's a new thing that's wrong that's never been seen before.

What's the difference here? It's the difference between a person who knows but cannot apply and a skilled technician who can apply the knowledge.

Most golfers know that you have to keep your eye on the ball just

**"TECH IMPLIES
USE. THERE IS
A WIDE GAP
BETWEEN MERE
KNOWLEDGE
AND THE
APPLICATION
OF THAT
KNOWLEDGE."**

**"YOU CAN
TRAIN
SOMEBODY IN
ALL THE DATA
AND NOT HAVE
AN AUDITOR.
A REAL AUDITOR
HAS TO BE ABLE
TO APPLY
THE DATA TO
THE PC."**

before, during and after you hit it. That's the basic datum of powerful, long drives down the fairway. So if this is so well known, then why do so few golfers do it? They have arrived at a point of *knowing* they must. They have not yet arrived at a point of being able to. Then their heads get so scrambled, seeing all their bad drives which *didn't* go down the fairway, that they buy rabbits' feet or new clubs or study ballistics.

In short, not being able to *do* it, they disperse and do something else.

All auditors go through this. All of them, once trained, *know* the right processes. Then they have to graduate up to *doing* the right processes.

Observation plays an enormous role in this. The auditor is so all thumbs with his meter and unfamiliar tools he has no time or attention to see what goes on with the pc. So for fifteen years lots of auditors made releases *without ever noticing it*. They were so involved in knowing and so unskilled in applying,

they never saw the ball go down the fairway for a 200-yard drive!

So they began to do something else and squirrel. There was the pc going release, but the auditor, unskilled as a technician for all his knowledge of the science, never saw the auditing work even though even the auditing done that badly *did* work.

Do you get the point?

You have to know your tools *very, very* well to see past them! An auditor who squirms, who fiddles about with a pc, who fumbles around and seldom gets results, just isn't sufficiently familiar with a session, its paffer, his meter and the mind to see *past* them to the pc.

Drill overcomes this. The keynote of the skilled technician is that he is a product of practice. He has to know what he is trying to do and what elements he is handling. *Then* he can produce a result.

I'll give you an example: I told an auditor to look over a past session of known date on a pc and find what was *missed in that session*. Something *must* have been missed as the pc's tone arm action collapsed in that session and ever afterwards was nil. So this auditor looked for a

"missed withhold from the auditor in that session." The ordered repair was a complete dud. Why? This auditor did not know that anything could be missed except a withhold of the hidden-event type. He didn't know there could be an inadvertent withhold wherein the pc thinks he is withholding because the auditor didn't hear or acknowledge. This auditor didn't know that an item on a list could be missed and tie up TA. But if he did know these things, he didn't *know* them well enough to *do* them. A second more-skilled auditor took over and hung the missed item on the list was quickly found. The more skilled auditor simply asked, "In that session what was missed?" and promptly got it. The former auditor had taken a simple order, "Find out what was missed in that session," and turned it into something else: "What withhold was missed in that session?" His *skill* did not include applying a simple direct order, as auditing looked *very* complex to him as he had so much trouble with doing it.

You can train somebody in all the data and not have an auditor. A real auditor has to be able to *apply* the data to the pc.

Aber-is and poor results do not really come from not-know. They come from can't apply.

Drills, drills, drills and the continual repetition of the *important* data handle this condition of can't-apply. If you drill auditors hard and repeat often enough basic auditing facts, they eventually disentangle themselves and begin to do a job of application.

There is no "magic" touch in auditing like the psychiatrist believes. There is only skilled touch, using known data and applying it.

Until you have an auditor familiar with his tools, cases and results, you don't have an auditor. You have a collected confusion of hope and despair rampant amongst nonstable data.

Study, drill and familiarity overcome these things. A skilled technician knows what gets results and gets them.

So drill them. Drill into them the above data until they chant them in their sleep. And finally comes the dawn. They observe the pc before them; they apply standard tech. And wonderful to behold, *there* are the results of Scientology, complete. Tech is IN.

Drew and Dede Johnston receiving their OT Achievement Award from Chairman of the Board RTC for spreading Scientology to thousands through their activities in the field.

DREW JOHNSTON

FOR 21 YEARS, HE HAS BEEN DELIVERING AUDITING IN THE FIELD. NOW, HE IS A CLASS VIII AND OT VIII, OT ACHIEVEMENT AWARD WINNER. THIS IS HIS STORY.

I first started in Scientology in June of 1969 and the first thing I did was get trained as a Hubbard Dianetics Graduate Auditor. In the following three years, I completed my Class VI training and became OT I. Between 1974-76, I did my training up to Class VIII Auditor including becoming a Class VI and Expanded Dianetics C/S.

Since 1981, I have been a field auditor, C/S and FSM. For many years in a row I was number one bookseller in I HELP and number one or two in moving people onto org or mission lines. My field group made many Clears in the 80s and 90s and started hundreds of public on The Bridge. In 1996, I was awarded Power FSM.

Between 1988 and 1999, our field group sold and delivered over 2.3 million dollars worth of Scientology services, along with over \$200,000 worth of LRH books and tapes. Through all this activity I have continued moving up both sides of The Bridge. I completed OT VII in 1985 and OT VIII in 1988 and recently completed both new OT VII and new OT VIII.

I have always seen that training and the application of the technology to those around me made it just that much

easier for me to move up The Bridge; I always knew my integrity was in due to my profession and I knew I was freeing beings — a job which no one else in this universe can do.

My Golden Age of Tech Training

While I've been a Class VIII Auditor and Class VI C/S for many years and have been auditing and C/Sing for a majority of the last thirty years, I have benefited incredibly from the experience of doing the Golden Age of Tech. I have learned all over again how vital a role the various tech basics play in addressing and handling life.

I have learned:

- How drilling is the key in preparing an auditor to fully master the tools of auditing. I had no idea how much drilling was needed and how much of a difference it would make.
- I have a much better understanding of how the Golden Age of Tech makes it possible to get Standard Tech fully

applied. This is the ultimate weapon in KSW.

- How there were numerous tech basics that I've failed to fully integrate prior to this training, even though everything was "right there in the bulletins."

As I move forward with this training, I feel more and more confident that I'm a threat to aberration. Wherever you are on The Bridge and whatever you are doing, do your Golden Age of Tech training and make it your business to get others up The Bridge and you will make it all the way to OT!

Expanding Scientology

—Drew Johnston

Billy Nichols
recent graduate
of the Class IV
Internship

the exact Golden Age of Tech EP of a repetitive process. I felt more and more confident each day as my tech videos improved.

The videos were a shock for me. However, I received excellent exams on TBs, metering, instant reads, and F'Ns based on these videos. I did word clearing, FDSing, saw Tech Films and drilled and drilled and drilled some more. Sometimes I had to video what I was drilling before I could go back in. That really set me up to win.

When I was done with my internship, I knew I could be there 100% for my pe and knew I could give perfect sessions. I had no attention on myself or what I was doing, I was relaxed and having fun.

I can't tell you how proud

week didn't think he could get his case handled. But he ended up on our lines and we handled him.

Had Annette and I not done our GAT training, we would not have been able to handle this case.

Another case was someone who started on Narcoticon lines about 7 years ago. He had been on and off addictive drugs more times than he could count. Most everyone had pretty much lost hope, including him. Fortunately I had finished my NED Certainty Course. I did an auditing program with him and on the secondary he was sitting in that was tormenting him day and night. Suddenly instead of being caved in all the time and craving some relief with drugs, he is now VGLs and F'Ning and mocking up going Clear.

Thanks to RUC for working out the Golden Age of Tech and to Ron for passing his hat on how to audit perfectly.

—JH

GOLDEN AGE OF TECH RESULT

Here is an example of the results gotten from the Golden Age of Tech. This is a pe success story from GAT Class VI field auditor, Bob Barron.

Yesterday for the first time since reading Dianosis, I noticed that I had certainty that L Ron Hubbard's auditing tech really works. This is a major life-changing win for me.

I had avoided auditing because I suspected that it just couldn't handle my particular case. I felt like I was standing outside a huge stadium watching hundreds of thousands of people being salvaged (including my own family) and although I was supporting it, I knew I would never be in that stadium.

How wrong I was! Through Bob Barron's expert application of the tech to my case, now I know what the ideal scene of auditing is.

Yesterday I did a nerve assist on my daughter with 100% confidence that I would get the expected result if I applied it correctly. There was no 'hoping' that this would work. This is now a science to me and works like any other scientific law. This viewpoint may be normal to other Scientologists, but it is brand new for me. My respect for LRH has risen to a new higher level and I know why KEEPING SCIENTOLOGY WORKING policy is so vital. Scientology really works when applied correctly. Thank you, Bob, for giving me back my certainty that I will make it up The Bridge after all. —JK

GOLDEN AGE OF TECH

ACHIEVING CERTAINTY, RESULTS AND SUCCESS

Field auditors, who have put thousands of hours in the chair, are speaking from experience when they give their wins on Golden Age of Tech training below.

BILLY NICHOLS

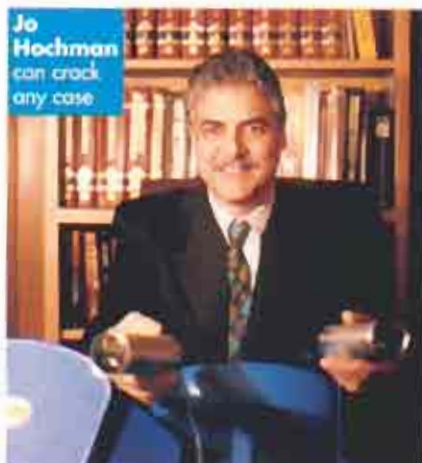

I just completed my Golden Age of Tech Class IV Internship.

I did my first Class IV Internship back in 1974. Boy, have the standards risen since then. The simulator at the time was a pencil. There were no video cameras. A lot has changed with the Golden Age of Tech.

I have been running a field group for the past 23 years and I can say that this is the best action I have ever done, not only for myself but for increasing my ability to get other people on and up The Bridge.

Both the Senior C/S and Qual Sec of San Diego Org worked with me intensively. The Senior C/S set a high standard from the very beginning of my internship and never let up.

I learned so much on this Internship: from simplifying my admin to how to get an EP on an Objective process every time to understanding fully

Jo Hochman
can crack
any case

I am of myself for getting through this. It all seems so much simpler now, and my TRs and metering skills are at their highest level ever. Not to mention that with all my new tools, I feel very confident I can handle any case.

I would like to thank LRH. Without him none of this would be possible. —BJ

Billy has 2X'd the viability of his practice since completing his Class IV Internship.

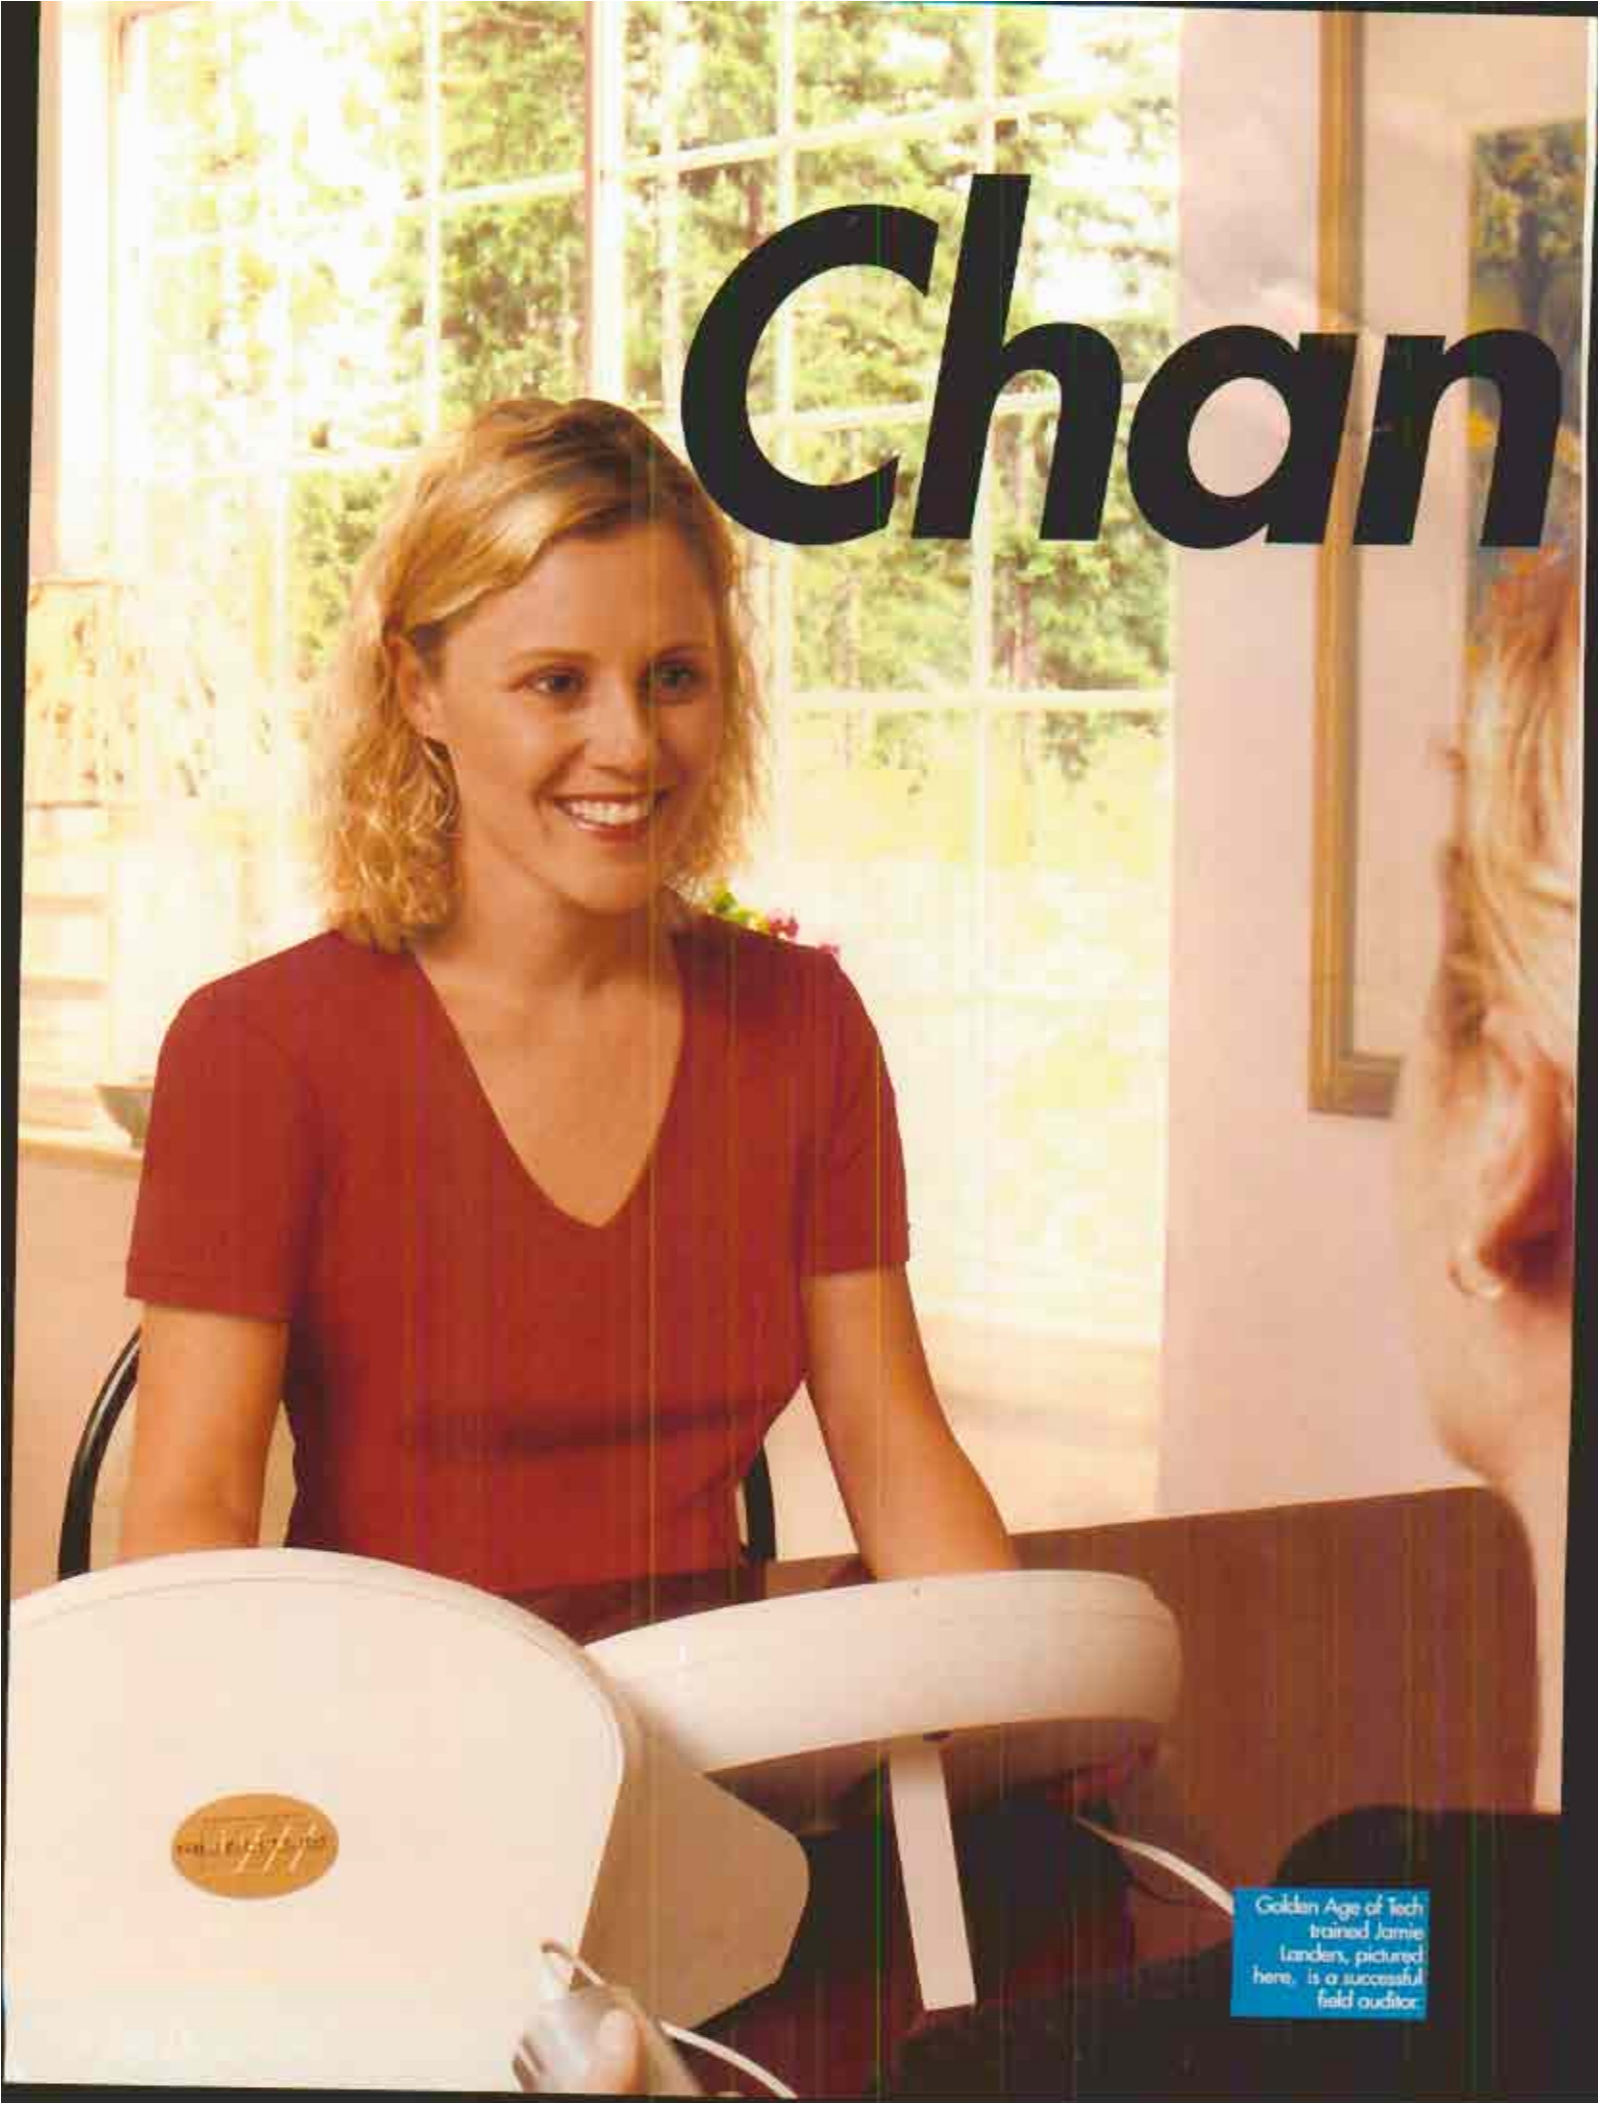

JO HOCHMAN

Last week our group's gross income was the highest ever income I have ever had since becoming a field auditor in 1974.

What is the why? Golden Age of Tech training.

The pe who brought 300 hours last

Chan

Golden Age of Tech
trained Jamie
Landers, pictured
here, is a successful
field auditor.

ging Gears

The most successful field auditors have done their Golden Age of Tech training and have shifted into high gear.

These field auditors are bringing more and more new people onto The Bridge — and getting up The Bridge themselves as well. The question then becomes, what do you have to do to get through your Golden Age of Tech training, and what does that mean to you as an auditor? This is what it means to auditor Richard Armstrong: “I finished my Class IV Internship, walked out of the org and I had my first presliars. I haven’t been lacking presliars since and I am auditing 40-50 hours every week.”

This is what Golden Age of Tech training is about — training to perfection to the point where the only concern you have is how you are going to handle so many presliars.

But let’s back up a few steps.

You know that Golden Age of Tech training will make you into a perfect auditor. But in order to become a perfect auditor, you have to do your training.

What does getting trained as a Golden Age of Tech auditor entail and how much time will it take you? What are the courses you need to do if you trained before the Golden Age of Tech and what are the requirements for a different route for an auditor who is already trained compared to one who is just starting?

To make it easier for you, here is exactly what you need to do to become Golden Age of Tech trained.

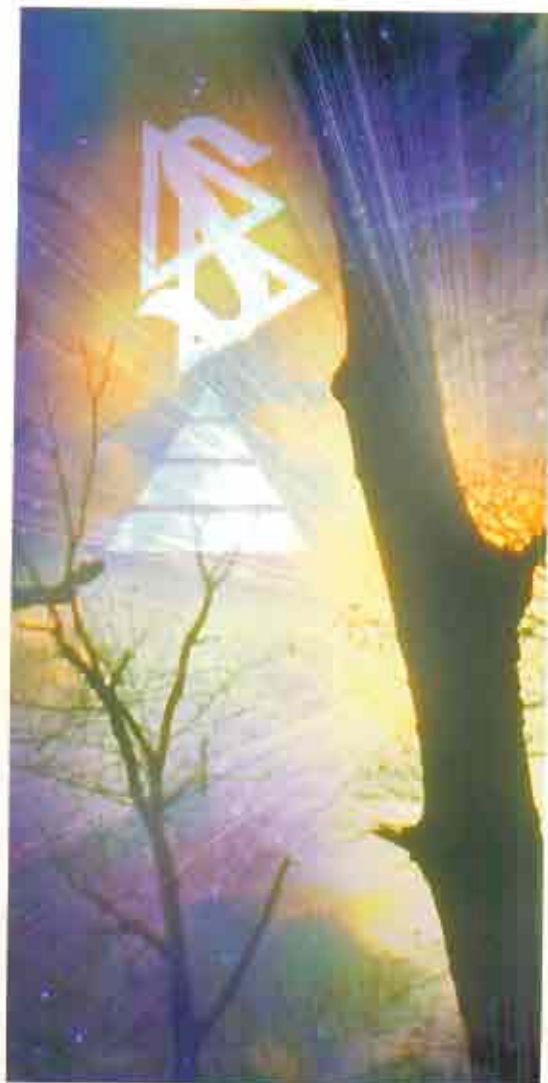

The Routes

There are two main Golden Age of Tech training routes: those consist of a route for those who trained prior to the Golden Age of Tech and another for those who did not.

The exact training route for those who trained earlier is

Drilling on Golden Age of Tech training drills in certainty.

MIRACLES HAPPEN ANYWHERE

SCIENTOLOGISTS ALWAYS SEEM TO SHOW UP IN THE RIGHT PLACE AT THE RIGHT TIME WITH LRH TECH.

I was exiting at the 181st Street subway station in New York with another Scientologist when I noticed there was a crowd of teenagers gathered around one girl. I asked what the problem was and was told the girl was having an asthma attack. I took one look at her and knew my medical training from the Army would not be good enough in this case. She was having a severe asthma attack, one where most people die.

I carried her to the wall of the subway station and eased her down on the ground. Her lips and nails were already turning blue. I was scared.

My friend went to call the ambulance and I turned to the girl. My R-factor to her was, "Honey, if you have any breath left, I want you to listen and do what I say." I started a locational, pointed to someone and said, "Look at that face," and she did! I started to hear faint breathing sounds. After several more commands, she was able to inhale and her breathing got stronger.

When the medics arrived, I explained to them what the actions were that I'd taken. They looked at the girl and couldn't believe what had happened.

I am a Scientologist and I know there was no other reason that that girl still lives, other than the fact I was there, and I used the tech I knew. — E.F.

NO MORE WHEELCHAIR

A man in my neighborhood had an operation on his legs and was in a wheelchair. The doctors said he would always be in a wheelchair.

As an auditor, I knew this wasn't true. So I started giving him nerve assists every day. The man could walk a bit but had no feeling in his legs and therefore had trouble walking. I taught his wife how to give him nerve assists as well.

After several weeks, the man had all the feeling back in his legs. He will never be in that wheelchair again! — A.B.

A NEW LIFE

As a field auditor, I recently opened and started delivering the Purification Rundown. My niece from Oregon was my first pre-clear on the Purif.

Prior to starting the Purif, she was unhappy, had constant somnics and felt very little emotion. In her own words, "I am not passionate about anything. I don't feel anything. I cannot seem to experience being happy or excited or elated. I feel helpless about my own survival."

My niece was spending over \$500 a month just on vitamin supplements to

try and handle her physical and emotional tiredness and lack of energy and it just wasn't working.

I knew if I could just get her onto the Purif her life would change, and it did.

My niece finished the Purif after 23 days and she is a whole new person, but her success says it all.

"I am aware of my surroundings and I feel that my life has come back to me. I am happy and free. I smile and it is real. I can experience love, and believe in it. I know that I am going to be okay. I have emerged a new person that has been born again into this life. I have made a new start. I am free to be me, today, tomorrow and forever.

"Less than eight months ago I was at the lowest possible point in my life. Doctors told me that I had multiple sclerosis and I would eventually be in a wheelchair. When I saw my nutritionist for the first time, she told me that I should be dead. Today, I am functioning. I am alive. I am happy and I am here. —

"I thank my aunt for her persistence in getting me onto the Purif. To my doctor for convincing me to do the Purif. And most importantly to Mr. L. Ron Hubbard, for giving these people the knowledge and technology to save my life." — M.B.

JUST ONE BOOK

While the following story was not the direct result of a field auditor, it shows the power of the tech in just one book being made available to people and what can happen as a result.

Some months ago, a Scientologist decided to donate Scientology Handbooks to be placed in libraries across the U.S., as part of the campaign to get LRH tech applied throughout the society. Recently he received a call from a man who wanted to tell his story regarding a donated copy of *The Scientology Handbook*.

"My son had been very, very sick in the hospital. The doctors told me they could do nothing and my son was dying. They didn't even know what was wrong with him. As he got worse and worse, I became desperate for something to save my son. I went to my local library and began searching the science, health and religion sections for an answer.

"Finally, I came upon *The Scientology*

"HONEY,
IF YOU
HAVE
ANY
BREATH
LEFT, I
WANT
YOU TO
LISTEN
AND DO
WHAT I
SAY!"

IF YOU CAN'T FIND THE ANSWER IN THIS BOOK, THE QUESTION DOESN'T EXIST

GET PRACTICAL SOLUTIONS TO BUILD THE FUTURE WITH THE SCIENTOLOGY HANDBOOK

Since September 11, people have been asking many questions. They want answers.

With this book, you can provide them. All of them.

If ever a book was desperately needed, this is it. If ever there was a time to build the future, it is now.

But to build anything, you need tools. Without them you go nowhere.

What happens when you don't have the tools for living? Just look around. You get the chaos, violence and decay of our modern world. And unlike a house you can vacate when it falls apart, you aren't going to move off the planet.

But tools for living do exist — and all of them are in the new Scientology Handbook. It's the foundation on which a better world can be built.

Here are the basics of living itself, hundreds of them, covering 49 separate bodies of technology. It's the only book in the world that contains every tool for handling any situation encountered in living.

Unlike other books, the tools in this handbook never wear out. The more you use them, the sharper they get and the better they serve you.

Stretching out ahead is your future. It's there for the building. It will be good or bad, depending on what you do right now with this vital handbook.

You do have a stake in what happens to the world and to yourself as well.

Get the tools you need to do something about it.

- MORE THAN 900 PAGES OF PRACTICAL IDEAS FOR LIFE

NOW IN 15 LANGUAGES! Danish, Dutch, English, French, German, Greek, Hebrew, Hungarian, Italian, Japanese, Norwegian, Portuguese, Russian, Spanish, Swedish.

Handbook I began reading it, and discovered the section, "Assists for Illnesses and Injuries" — I knew this is what I was looking for. I went back to the hospital and began delivering assists out of the handbook. A short while later, I was amazed and overjoyed to find my son was no longer ill and has now fully recovered." — D.M.

EMERGENCY ASSIST

I was going to the org around lunchtime and came upon an accident that had just occurred where a young man of about 20 had been hit by a car while riding his bike.

I called 911 on my cellular phone to report the accident and for a split second I tried to convince myself that I had done enough, but I knew it wasn't true.

I got out of my car and went over to the boy. He had a head injury and was starting to lose consciousness. I briefly got in comm with him and then started giving him an assist. He was completely compliant to the commands and I could tell it was a tremendous relief to have his attention directed for him, and he was becoming more alert. The police arrived on the scene before the paramedics, and I guess I appeared to be sufficiently in control because they stood back and allowed me to continue tending to him until the ambulance arrived. Once

the paramedics arrived, I told him the ambulance was here and that they would take good care of him. Tears of appreciation filled his eyes and he thanked me for staying with him. He was much more alert and in command; I knew he would be okay.

I realized afterward that a few other people had pulled up in their cars to see what was happening but no one interfered with what I was doing and in fact no one but me had any tech to do anything. I'm very grateful that I do have the tech to do something about it. — L.J.

MORE THAN A PRAYER

I have a business associate who has a 12-year-old son, who had a heart transplant 3 years ago.

One day I was busy with an architect on a project and I called this business associate. He said he was at the hospital as his son was back in again as his body was rejecting his heart. I said I would call him later and asked if there was anything

I could do. The answer he gave was, "Just pray for him."

After I hung up with him, I started thinking of all the training that I had done and I knew I could do more than just a prayer.

I called my business associate back and asked him where he was. He told me and I said, "I am on my way." My friend assured me that all I needed to do was pray for his son. I said I would but I was coming over anyway.

Once I arrived at the hospital, I got in comm and discovered that the boy was not in a good condition. He was in the Intensive Care Unit, receiving a lot of medication.

I was informed that his heart rate was dangerously high at over 140 beats per minute. So I got to work.

I explained Assist Tech and asked the father if it was okay to give his son an assist. He said yes. His son said yes, too. I started with a Touch Assist.

After 15 minutes, the boy's heart rate was down to 126. His father was amazed and between the three of us we had the most theta comm cycle about spirituality and life.

Ten minutes later the doctor arrived to do his rounds. He entered the room, looked at the boy who was bright and cheerful, with color back in his face again. He looked at the heart monitor and did a

double take. He looked again and asked the boy how he was feeling. The boy said, "Great. Look how my heart rate is down. Doc. Do you think the medicine is working?" then winked at me. The doctor changed the subject and kept asking the nurse questions and looking at the heart monitor.

The boy asked the doctor if he would still need to go to the other hospital. The doctor replied in a stumbly voice, "We should take things one day at a time, but perhaps not." The doctor left and the boy said, "He has no clue."

An hour later the boy's mother arrived and we sat and spoke. The boy then piped up and asked for another assist. With his mother watching, I began the assist. Within ten minutes, his heart rate was 121 and stable. His mother was flabbergasted and kept saying, "His heart rate came down while I watched." As I was leaving, the boy's father was almost in tears, thanking me for what I had done.

The tech that Ron gave us enabled me to perform a miracle. — M.B.

PROCESS OF THE MONTH

POWER OF CHOICE

HELP SOMEONE
REGAIN THEIR ABILITY
TO AGREE OR DISAGREE

REFERENCE: Lecture
14 October 1955, "Further
Aspects of Exteriorization."

USE OF PROCESS:
General auditing.

INFORMATION: This is
a process that can return the
power of choice to a person to
agree or not to agree with the
people in the society where
the individual lives.

PROCEDURE:

Part One:

Go out into a populated area.
Use the command:
"Spot some people."
Run this over and over and
over, to end phenomena. After
a while he should get the idea
that maybe he can be in agree-
ment with some of the people.

Part Two:

This part is also run in a popu-
lated area. The commands are:
1. "Spot a person out there
you're separate from."
2. "Spot another person you're
separate from."
Run these commands 1;2,2,2,2,
etc., to end phenomena.

Any condition of the
human spirit can
be resolved with the
technology of auditing. Man's
problems and miseries **can** be
handled. The process above is
a simple but powerful process.
Use it to help people regain
abilities they think they lost
never to be recovered.

"Auditing is for use.
"Auditing is the answer to
human disability and travail.
It can make life worth living.
"Auditing is not a limited
action. ...

"There is no limit to what good
auditing can do. That is the
first thing one should learn
about it." — LRH,

HCOB 15 January 1970;
THE USES OF AUDITING

Ensure your preclears

Know...

the secrets of revitalizing a civilization

Ron's monumental lectures on the mind and spirit - the Classics - are now available to your preclears on CD! When they subscribe, they get one a month every month - more than 40 in all!

Like the lecture *Something Can Be Done About It*, this month's Classic - where Ron reveals one of the most powerful and useful datums in existence, applicable to every facet of life.

Spanning the entire length and breadth of Scientology, the Classics cover

everything from the bedrock of life and livingness, to the infinite abilities and potentials of OT. These are the basics your preclears need to know to increase their knowledge and understanding of life. This will make their progress up The Bridge even faster.

And for every person you sign up, you will receive credit for one free lecture on your own subscription.

Get your preclears connected to Source! Sign them up for the Classics now!

Attendees at the Latin America Expansion Congress with their Dianetics Group Manuals. They are starting groups all over South America.

SPEARHEADING UNLIMITED EXPANSION

SCIENTOLOGISTS JUST LIKE YOU ARE GETTING THE TECHNOLOGY APPLIED AND DISSEMINATING MORE AND MORE FOR REAL GLOBAL EXPANSION

LATIN AMERICA EXPANSION CONGRESS

Recently the First Grand Latin American Expansion Congress was held in Mexico City, Mexico. This was a combination of efforts between the areas of Scientology Missions International and I HELP. The Expansion Congress was attended by 230 people which went from 11am to 6pm on Saturday and Sunday.

The attendees went over dissemination on the first day covering key LRH references and drilling giving lectures and using other basic tools. The second day covered how to open field groups and missions.

The result: thirty-nine people signed up to open field groups that day and 22 people signed up to open missions!

The I HELP members and Scientologists of Latin America are totally on fire to get all their orgs Saint Hill size by forming 50 groups and 10 missions for every single one of their orgs. This event was just a start to rocketing the expansion in that area of the world.

SPANISH FIELD GROUP ROCKETS EXPANSION

The Alicante Field Group is expanding like never before. In the last eight months, they delivered more services than in the entire previous year. They have sent 11 people in the last three months to do the Clear Certainty Rundown at the local org with many more lined up to come!

Many of their early prelearns are now well up the OT levels. And the group's eight full-time staff are all on their OT levels or rapidly moving up to that point.

The auditors in this group are Golden Age of Tech trained. Here are some of their wins:

- I personally was auditing a pc who had

cancer. After one week of auditing, she went back to her doctor and the count of cancer cells was showing a huge decrease. Needless to say, her doctor was amazed!

- There was a public who had been off lines for over ten years. Ensured she was programmed standardly to get up The Bridge. In just over an intensive, she was completely rehabbed and one month later went for her CCRD.

Alicante is expanding their group by being on-purpose and in-tech. They are working on clearing their country with 100% Standard Tech delivered by their Golden Age of Tech auditors.

HOSPITAL WELCOMES SCIENTOLOGISTS

In South Africa, the Pretoria East Scientologists decided they were going to start visiting and assisting patients in the nearby hospital every Saturday and Sunday.

On the first afternoon they went to the hospital, they all wore Volunteer Minister T-shirts and went into the ward. They told the sister in charge that they were there, as arranged with the sister who runs the hospital. They walked around the ward and saw that some patients were up and about, while others were very out of present time after operations.

They immediately started talking to the patients, telling them what assists were and asking their permission to

Alicante Field Group's public waiting area; part of their new premises

give them assists. In the meantime, two of the scientists showed the sisters what an assist was in the handbook as they were curious.

Here is a success from one of the Scientists there:

"When we came into the ward, it felt downing, as if there was nobody home. One patient, Johannes, who was a bit out of it when we came in, opened his eyes after I gave another person an assist. I went over to him.

He had an oxygen mask on and was dragged a bit. I explained the procedure and started giving him a touch assist. I could see he was running through some drugs and had moments of anaten; but I carried on. Then at one point he didn't have a comm lag on my command and seemed much better. I asked him how he was doing and he said that he was feeling much better. He then pulled off his oxygen mask and started telling me what happened to his lung. He was really in comm."

The whole ward came up and the interest was definitely way up. One of the sisters asked for a VM business card in case she had a crisis with a patient, so they gave her one.

Utah's youngest field auditor, just finished delivering a Book One session. That is a very happy pc.

good about is the fact that I was busy helping my 3rd and 4th dynamics for real and not just forcing it up to the org staff to do it."

11 YEAR OLD AUDITOR

In Kearns, Utah, Martha Ferdkowien and Steve Lord started a Dianetics study group. They started out studying and auditing Self Analysis. In their first 6 months, they audited 240 hours.

Now others are joining them, including a Dianetics auditor, Lucas Trakota, who at the age of 11 years is auditing regularly as part of their group.

Both Martha and another auditor, Andy Shi, have done the Golden Age of Tech HDA Course. Ancis, along with another auditor, David, have

HOT TIPS

THERE ARE SIMPLE ACTIONS YOU CAN TAKE TO CONSISTENTLY GET PEOPLE MOVING ONTO THE BRIDGE

These simple actions to get paying preclears were done in Brooklyn, New York by a Russian field group. The group decided to start delivery and now consistently has paying preclears.

1. Do a survey to get local buttons and find out what is needed and wanted as per Chapter 19 of *The Scientology Handbook*.
2. Find a popular newspaper in your area, one with a high circulation.
3. Write an article using the buttons from your surveys, get it approved by you local LRH Comm and get it placed in the newspaper.
4. Start to receive phone calls and set up appointments.
5. Deliver.

Here is an LRH datum:

"Working without surveys, you could spend thousands a month on

ation
ds."

Walk-in to the exhibit.

Getting the true data in the VM tent.

need to be told, as "Of course, I will do the course."

SUNDERLAND, ENGLAND

Here are some successes from the VMs:

■ "I am part of the team that is willing to change this planet for the better. That's a big purpose and my reach is way way

way up. Thank you VM Crusade, I feel I achieved my first goal which was to be a Volunteer Minister."

■ "I feel my responsibility level has come up, I can help anyone without the need to have a reason for doing it, I can help on any dynamic."

■ "It has been great working on the VM Crusade along with other Scientologists. I have personally had many wins helping others with communication problems, study difficulties, etc. Each cycle ends with VGIs for them and me."

STOCKHOLM, SWEDEN

The turnout by Scientologists for the VM Crusade in Stockholm, Sweden, was impressive.

During preparation for the VM Crusade's visit there, the Executive Director of the org pointed out that there was nowhere to sit in the org as it was packed full of public getting scheduled to help in the tent, being drilled, doing the VM course, etc.

Some 3,700 public went through the VM Exposition in Stockholm and 1,432

DOING SOMETHING ABOUT IT

WITH THOUSANDS OF SCIENTOLOGY® VOLUNTEER MINISTERS NOW ACTIVE AROUND THE WORLD, LRH TECH IS BEING DELIVERED TO MORE AND MORE NEW PUBLIC EVERY DAY.

The Volunteer Minister Program continues to spread around the world due to the hard work of Scientology Volunteer Ministers getting out on the comm lines and making the solutions of LRH tech known.

HIGHLIGHTS FROM THE VOLUNTEER MINISTER CRUSADE

For the last few months, the Volunteer Minister Crusade has been traveling across the United Kingdom and Europe to such cities as London, Copenhagen, Manchester, Birmingham, Sunderland, Aarhus, Göteborg, Edinburgh and Oslo.

In each city, the Volunteer Ministers erect a big yellow tent which contains a full exposition of *The Scientology Handbook* chapters. They then invite people in to tour it and offer help to every person.

Here are some highlights:

GÖTEBORG, SWEDEN

In Göteborg Org, on the first day of the

VM Crusade, more than 250 people called the org and more than half of these were raw public asking for information about Scientology. They wanted to know what we were doing with the yellow tent in the park in the middle of the city and if we really could help.

The public visiting the tent came back every day with new people, their friends, parents, etc. One Iranian man, for example, bought the Success Through Communication Course, and three days later he returned with two friends. They waited for a VM to help them, but as all the VMs were busy, the man started to enlighten them the same way he had been enlightened three days earlier.

When a VM finally arrived and asked how he could help them, the man answered, "I am convincing them to buy the Communication Course so we can do this together." He was interrupted by one of his friends who said he didn't

public were helped, 196 books were sold and 777 assists were given.

MIRACLES

"I gave a touch assist to a man who had had an accident two months earlier falling down some stairs. He had pain in his shoulder, back and leg. After 20 minutes he said that his leg felt much better and after another 10 minutes his back pain was completely gone. I ended the assist and then decided I was really going to handle this situation completely.

"I told him to close his eyes and started a Book One session right then and there. I asked him to go back to the incident where he fell down the stairs and he did. Then we went through this incident several times and suddenly, totally surprised, the man said that the pain in his shoulder was completely gone!"

WHAT ABOUT ME?

A public came into the VM tent in Stockholm and was shown the displays and the actions from VMs around the world. He then asked "What do I have to do to get a T-shirt?" He was told, "Complete the Volunteer Minister Course." He purchased and started the VM Course immediately.

FIRE DEPARTMENT INTERESTED IN ASSISTS

The Chief and Engineer of the fire department in Stockholm came to the VM Exposition. They bought two assist booklets and said they wanted to give the data to their crew in the rescue department.

TUNE IN TO THE VM RADIO

A Scientologist is now hosting a new Volunteer Ministers Radio Show every Sunday morning at 8:00am on AM 1510 in Orange County with Executive Director Orange County Org as the guest speaker!

TEXAS NEWSPAPER STORY

A Volunteer Minister in Dallas, Texas, opened her newspaper one morning to find an article on a tragic car accident involving a family. Out of eight family members, only two had survived, the father and a son. Seeing this embryo the Volunteer Minister decided it was her responsibility to do something about it.

Though one name in the article she tracked down one of the relatives. She explained what Scientology VMs do and told the woman she wanted to help the family. The woman agreed and accepted the help.

The VM went to the hospital. She found the father and son and started giving assists. The boy was unconscious, but with the assists began to improve. The father had wins on the assists and wanted the VM to continue her help.

The Chaplain at the hospital tried to intervene, but once he was briefed on what the VMs did at Ground Zero and other disaster sites, the Chaplain agreed that VMs are the kind of people they should have around. He then offered the VM a job in their Chaplain program.

In the meantime, the VM recruited up more Scientologists in the area and they are now doing assists in the hospital regularly, helping people — all from action taken on one article in the newspaper to make the world a happier, better place.

Bunny Dubin briefing on Scientology VM activities.

CONNECTING UP

The Points of Light Foundation is a volunteer organization. People are encouraged to participate in and become part of this foundation. The foundation is open for all volunteer groups to participate in with the purpose of increasing the cooperation of these volunteer organizations as a 3rd and 4th dynamic activity. Recently, both I HELP and the Volunteer Minister Program

VM I/C International going over solutions in *The Scientology Handbook*.

WEAR YOUR VM COLORS

Wearing the insignia of the Scientology Volunteer Ministers is a vital part of letting people know we are here and can help them.

Whenever you are doing VM activities, wear your jacket or T-shirt or bring your backpack.

Here is an example: Michael McCanney was immediately contacted when a Scientologist was in the hospital after a car accident and needed help.

He put on his Volunteer Minister attire, grabbed his copy of *The Scientology Handbook* and rushed to the hospital. He was there daily giving assists.

A doctor told another VM who went to the hospital, "Whatever this Minister is doing, tell him to keep doing it. Now surgery will not be needed."

You can bet that doctor and the staff there won't forget the minister in yellow.

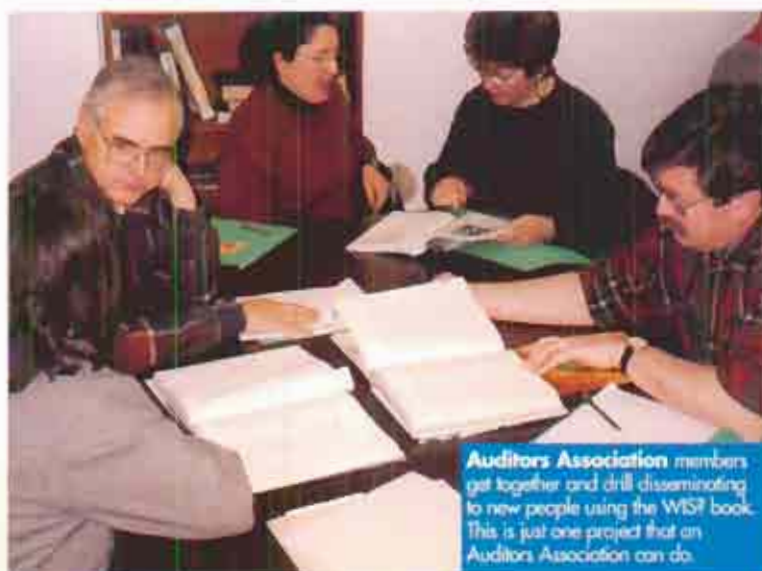

became members of the Points of Light Foundation.

With a Scientology Volunteer Minister's booth set up at the Points of Light Foundation National Convention in Salt Lake City, Utah, we connected up with more than 90 leaders in the field of volunteerism. This included establishing a communication line with the Vice President of the Red Cross for Disaster Services, who specifically came looking for the Church of Scientology Volunteer Ministers as he wanted to ensure he connected up with us. Everyone who was contacted by the VMs is now reaching for the solutions that we have.

This convention has opened up the lines to create future expansion.

CHANGING THEIR COMMUNITIES

AUDITORS ASSOCIATIONS UNITE AND GET ACTIVE IN THEIR COMMUNITIES AND CHANGE THEM FOR THE BETTER.

Auditors Association members get together and drill disseminating to new people using the WIS? book. This is just one project that an Auditors Association can do.

WITH ED 129 Int. RE: Your Auditors Association, Project in YOUR AREA, LRH states, "GET THEM INFORMED, GET THEM AUDITING, GET THEM AS FSMs, GET THEM HELPING YOU NOW NOW NOW" — LRH

SAN DIEGO

This Auditors Association has been delivering a Dianetics Workshop on the first Sunday of every month for well over a year. Their basic pattern is to hold a brunch, show the Dianetics "How to" video, have a question and answer period, have Clears give their wits, and then offer each member of the public a free session from a professional Book One auditor. After these sessions, they are sold a book, auditing or a course.

ISRAEL

The Auditors Association in Tel Aviv is planning a seminar for current and future field auditors to hat and drill them on the tools that a field auditor needs in order to run a successful practice or group. This is based off of the datum from the lecture, "Second Lecture on Clearing Methodology," where LRH states, "...*God pity the field auditor. I happen to know that he wears 105 hats! That's right. That's the number of hats he functions with.*" They know they need at least 50 full-time field groups around the Tel Aviv org to make it Saint Hill size, so they are going for making this target rapidly!

SACRAMENTO

The Auditors Association has connected up with the Interfaith Services Bureau, a group that works to achieve ARC among all faiths. The Auditors Association members work with the bureau's literacy/storytelling program and sing in their choir. The Interfaith Services

Bureau recently requested to have a page added to their website for the Church of Scientology, Sacramento.

Another group of Sacramento auditors work with the American Red Cross, which is interested in using Scientology Volunteer Ministers. So far the Red Cross has delivered Disaster Relief Training to the Auditors Association and VMs at the org and the VMs have taught them Assist technology — and delivered assists to their staff, as requested!

The Auditors Association I/C recently established a comm line with the Fire Department Chaplaincy. The Head Chaplain was interested in the assist technology. He also invited the Auditors Association I/C to accompany him on a regular basis to handle family counseling situations as they came on his lines. This is the first time ever that the Chaplain has worked with a non-psych!

SEATTLE, WASHINGTON

Rachel Karl, Auditors Association I/C for Seattle, Washington, returned from the Auditors Association Convention at Flag with a big purpose to get all public in her field activated as field auditors and formed into groups. She then held two activation workshops for local Scientologists to hat them on how to start and run a field practice. Many people signed up and have started already! She is continuing regular workshops in her area.

ASHO DAY

ASHO Day's Auditors Association has concentrated on getting their members on and up both sides of The Bridge. Almost every member is now on or through their Saint Hill Special Briefing

Course. Phil Embick and Bette Cocter recently finished the SHSBC. Kyle Mahler finished OT V. Abbye Keiarik and Sufila Travers started OT VI. Other members who have recently gone OT are Tracy Zimmer, Paul O'Malley and Bonnie O'Malley.

MONTREAL

Yves Fiset and Darrel Schlereth run the Auditors Association in Montreal. They decided to increase the number of field auditors in Canada.

Starting in Toronto, they delivered a Dianetics lecture. After the lecture, one of the attendees called up her sister in Louisiana, and told her all about the lecture and how great it was. Her sister was so excited about it that she invited Yves and Darrel to Louisiana to deliver not just one but three Dianetics lectures, which they did.

Continuing in Canada, they did Dianetics Seminars in Ottawa and Montreal and got more public auditing and using Dianetics in their communities with their friends and families.

In total they have activated over 100 new auditors.

As part of the Auditors Association, a Book One Club was formed by Yves and Darrel so that all new auditors of Dianetics can be a part of the group and get the support and help they need to continue auditing Dianetics in the field.

Another action done by this Auditors Association was to place a Volunteer Minister Course ad in the newspaper for raw public. Calls from this ad started coming in immediately and the public are being routed right onto course! ☺

WELCOME NEW I HELP MEMBERS

Kecht Field Group one of the largest field groups in Europe.

VIRGINIA MAC GREGOR

Six years ago Virginia started a brand new career as a field auditor. Today she is doing what she always dreamed of — helping others onto The Bridge. This is how she started her career.

Virginia Mac Gregor uses all levels of the tech to help her preclears.

In fact, I send many into the orgs.

I disseminate and give assists constantly. Once I help someone, I always give them my business or Minister card so they can call me later if they want more help.

My approach is very simple. I get in comm with the person. Then when they ask me what I do for a living, I tell them I am a minister and this pulls them right in and they start asking questions. I keep it very simple and don't tell them a lot. I will show them a book sometimes. I tell them if they want to find out more about what I do, they can come see me, and I give them my card.

If the person tries to give me a hard time, I simply point out to them that I help get people off of drugs, help people study better, help improve their relationships, etc. etc. and while telling them this list, I simply tell them also to let me know as soon as they find something that I do that they object to. Of course, unless they are a suppressive person, they won't be able to object and at that point, they normally have gotten the point and are reaching to find out more data about Dianetics and Scientology. I give them my card and tell

For most people, the idea of changing careers mid-life would be a frightening experience. However, LRI laid out the exact way to start a field practice and Virginia followed his steps to the letter. As a result, in the last 6 years she has created a field practice that has paid for all of her Bridge, and that of her family, as well as giving her the time to do The Bridge!

This is how she did it: "I first connected up with Tony Wyant, a professional field auditor, and started auditing in his field group. With him I learned the basics of how a field practice works based on LRI policy. Then I went out on my own.

"As LRI lays out in *Ability* article, START THAT PRACTICE, I started out auditing a friend for free and he sent me my next preclears.

"I used Book One and got great results. The word soon got out as my preclears told their friends and brought them in. Now, I have A LOT of pcs — more than enough.

them to come see me. When they do come see me, then I do whatever I can to help them and get them onto The Bridge. I really care about people.

"As I do care for the people around me, I am always willing to help someone. As an example, one day I was driving down the highway and there was an accident. All these cars were going around this woman who was lying in the road. I stopped and gave the woman a locational and a Touch Assist. She was in shock but with the assists quickly came out of it. She suddenly

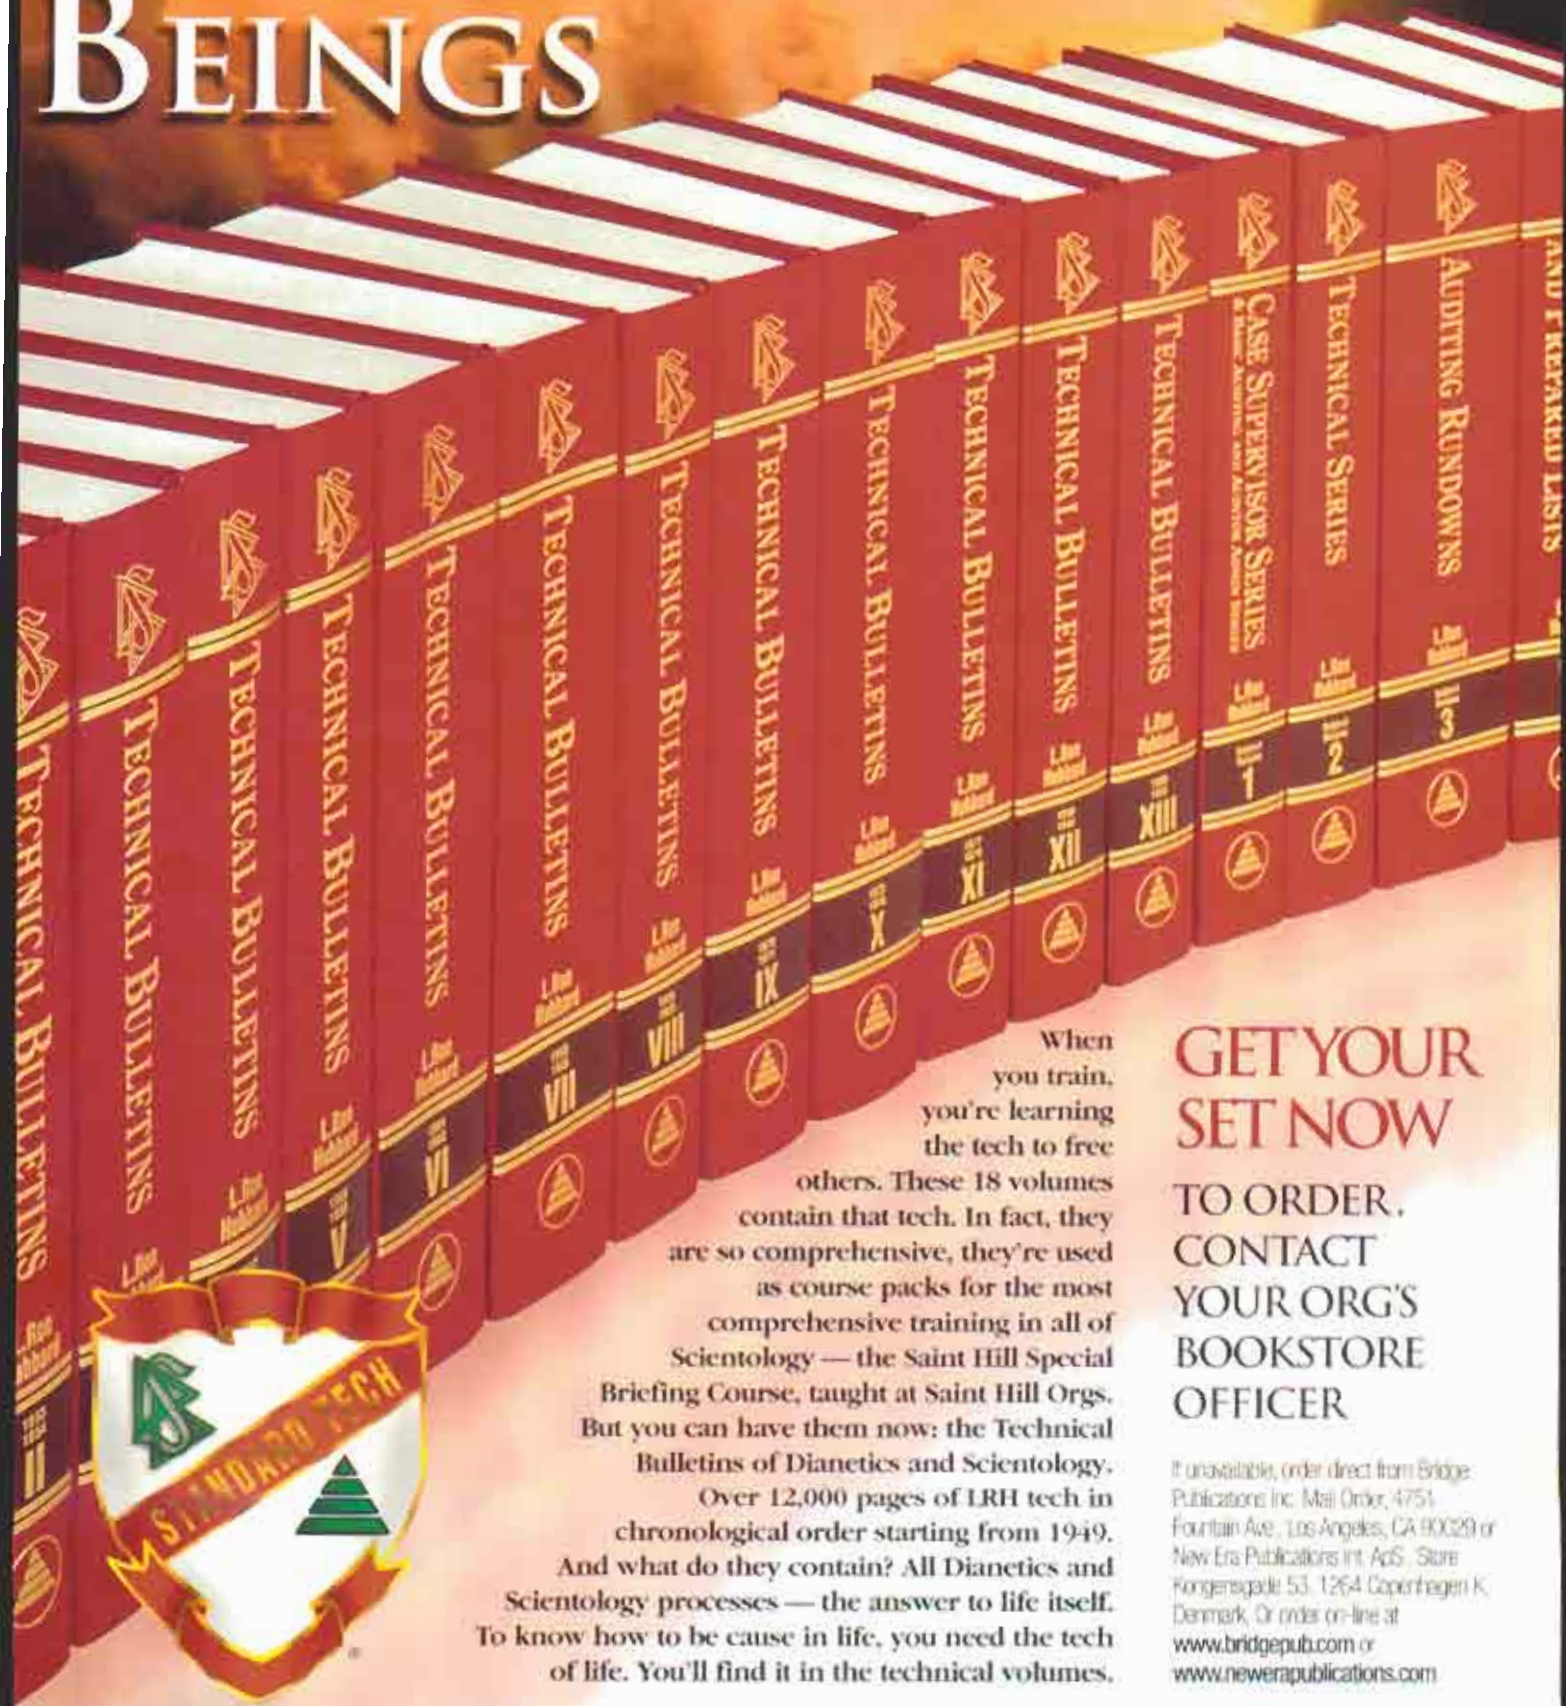

realized she was on the highway and then she said, 'I am a nurse and I was in shock but I am not now. What did you do? I want to learn it,' and I showed her. There's one more person who has been helped, knows that the tech works and will take her next steps on The Bridge.

"I used to model and make thousands of dollars a day but that meant nothing to me compared to field auditing full-time. Best of all, I am making it up The Bridge and bringing my family and friends with me."

Enlightening a new pc.

GET THE TECH TO FREE BEINGS

When you train, you're learning the tech to free others. These 18 volumes contain that tech. In fact, they are so comprehensive, they're used as course packs for the most comprehensive training in all of Scientology — the Saint Hill Special Briefing Course, taught at Saint Hill Orgs. But you can have them now: the Technical Bulletins of Dianetics and Scientology. Over 12,000 pages of LRH tech in chronological order starting from 1949. And what do they contain? All Dianetics and Scientology processes — the answer to life itself. To know how to be cause in life, you need the tech of life. You'll find it in the technical volumes.
